MUSIC PUBLISHERS ARRESTED.

Harry Goldsmith and Merton Marks Accused of Fraud.

Harry G. Goldsmith and Merton Marks, both 23 years old, members of the firm of Marks-Goldsmith Company, Inc., music publishers in the Metzerott Building, were arrested yesterday by police on charges of violating section 11 of the penal code, which prohibits fraudulent use of the mails. The young publishers were arrested before United States Commissioner Isaac Hill and released under \$1,500 bonds each. Goldsmith and Marks were arrested in their offices by Detectives Boyle, Evans, Stringfellow, and Embrey and taken to the police station. The complaint is that the defendants advertised to publish music for a specified sum and failed to keep the agreement.

Girl Witness Against Greek.

Maude White, 15 years old, was arrested yesterday by the police on a charge of being a fugitive from her parents, who live at Chesapeake Junction. The girl disappeared from her home September 1. She is being held at the House of Detention to answer as a witness against Nick Georgelas, 22, a Greek employed in a luncheon room at 804 K street northwest, who was arrested on a charge of a robbery of \$100. The arrests were made by Detectives O'Brien, Pratt, Evans, and Warren.

GAYETY STARS HAVE LOVE FOR FLYING

Sherlock Sisters, Whose Singing and Dancing Pleases, Also Like to Swim.

The Sherlock sisters' singing and dancing have attracted attention at the Gayety this week.

While playing in San Francisco several months ago the Sherlock sisters accepted a dare to take a flight with Lincoln Beachey, the famed birdman. They soared over the Presidio, over the bay, and back over the city. They were so delighted with the experience they have never been contented since with any other form of locomotion and avail themselves of every opportunity to take a flight.

"This is our first season with burlesque," stated Miss Florence Sherlock, "and we're more than delighted with the change from vaudeville with its usual run of three performances a day. Yes, we're really and truly sisters. Don't you think we look alike?"

The Sherlock sisters find outdoor life an essential and with other accomplishments are expert swimmers. Several years ago, while playing in Hawaii, they became exponents of surfboard riding. Under the tutelage of Duke Kaunapou, winner of the Olympic swimming contests at Stockholm, the sisters soon became experts in this thrilling diversion.

While this is their first season in burlesque, it is more than probable that it will be their last. The producer of a New York review has telegraphed Manager Peter S. Clarke in order to obtain his release for their services. His consent was unobtainable, but the sisters are content with the prospect for next season.

HEAT WAVE WILL LINGER.

Weather Bureau Says "Not Quite So Warm" Today.

Warnings of Palm Beach suits are promised several more days of midsummer weather. The official forecast of the Weather Bureau states that it will be fairly hot, quite so warm today, but there is little hope of abatement of the heat wave which has visited the city since Tuesday. Fair weather and light westerly winds are predicted for Saturday, and this may help to slightly lower the temperature.

Hark! It's the Hoot of the Hoo Hoo!

San Francisco, Sept. 9.—At nine minutes past nine on the ninth day of the month—Hoo Hoo Hoo! from all parts of the United States and Canada assembled in the Hoo Hoo building at the exposition of their annual session. Ninety-nine "stunts" are scheduled on the three-day program arranged by the Order of Lumbago. Instead of the formal banquet of the Hoo Hoo will "feed on the roof" of their big redwood exposition home in honor of their black cat mascot.

Servant Confesses to Part In Murder of Mrs. Nichols

Inspector Faurot admitted the police results in the death of Mrs. Elizabeth Nichols, widow of Joseph E. Nichols, founder of Austin, Nichols & Co. wholesale grocers, was cleared up today by the confession of Onni Tallas, 22 years old, a Russian-Finn house boy, employed by the dead woman.

The crime was the result of a conspiracy of servants, who aimed to obtain a great fortune in jewels that Mrs. Nichols was reputed to own. They had no intention of killing her. Implicated in the conspiracy, according to the police, is Tallas, a tool, planted in the house when the dead was conceived, a former employee and two men known to the police, but whose names are being withheld.

Whether Mrs. Nichols died from injuries inflicted by the burglars or whether her death was caused by shock superinduced by the attack is still a matter of conjecture, the announcement of Dr. Otto T. Schultz, State medical examiner, and Dr. Benjamin Swartz, coroner's physician, who performed the autopsy, being vague. Their verdict was that Mrs. Nichols had been afflicted with chronic intestinal nephritis and hypertrophy of the left ventricle. Abrasions of the forehead also were noted. The combined weight of the shock of the attack, the physicians stated, might have produced death. But whether the woman died from the direct attack or as a result of it, he said, assailants are guilty of murder under the law.

Tallas' confession came after all night guard at the hands of the police and when it was finished in the morning.

Recall of Dr. Dumba Is Asked by U. S. Government

Continued from Page One.

The promptness with which the United States has acted in the Dumba case is taken to mean that this government will bring to an end certain operations that have been furthered by diplomats from other countries. The President and the Secretary of State apparently have lost patience with diplomats who have engaged in various activities that have excited unrest in this country and might, if permitted to continue, provoke troubles menacing to domestic peace.

INCRIMINATING PAPERS ON ARCHIBALD.

The President lost no time in reaching a decision in the Dumba case. The first news that James F. J. Archibald had been furthered by diplomats from other countries. The President and the Secretary of State apparently have lost patience with diplomats who have engaged in various activities that have excited unrest in this country and might, if permitted to continue, provoke troubles menacing to domestic peace.

DUMBA IN CONFERENCE WITH VON BERNSTORFF AFTER HEARING OF NOTE

New York, Sept. 9.—Dr. Dumba, the Austro-Hungarian Ambassador, secured to make a statement tonight at the St. Regis Hotel. All inquiries were answered by his secretary, Prince Alfred zu Hohenlohe-Schillingsfuerst, who said that he was authorized to tie up all munition plants in this country by calling out from these factories the thousands of Austro-Hungarians employed in them.

Dr. Dumba received word from Washington about the note after 6 o'clock this evening. He hurriedly went to the Ritz-Carlton, where Count von Bernstorff, the German Ambassador, has a suite of apartments. According to the hotel management, the count and Dr. Dumba had dinner together on the roof, after which they went to the count's suite.

Dr. Dumba also had a conference with Alexander von Nuber, the Austrian consul general in this city. Von Nuber refused to say anything about the note, but Count von Bernstorff also refused to talk. He denied he had seen Dr. Dumba.

Police Seek Woman's Relatives. Police are searching for relatives of Mrs. Frances C. Howard, an elderly woman, who died in Sibley Hospital Tuesday. Mrs. Howard, who formerly lived in Baltimore, came to Washington some weeks ago, taking rooms at 1212 Twelfth street northwest. The nearest relative of the woman, John Frazier, is supposed to live in Calgary, Canada.

British Guns Claimed Forty Lives. Amsterdam, Sept. 9.—The Telegraph today says that advances have been received from Germany to agree to modifications of her submarine warfare, and to comply with the demands of the United States with respect to both the Arabic and Lusitania cases.

Consequently Washington was prepared to be shocked when news was received here last Sunday from London telling of the arrest of one of James F. J. Archibald, an American correspondent, and the seizure from his person of a sensational photograph communication from Dr. Dumba to his government proposing

OFFER RANSOM FOR CREW OF MAROWIJNE

United Fruit Company Doubts, However, Bandits Hold Men of Lost Steamer on Island.

New Orleans, Sept. 9.—The United Fruit Company advertised today it would pay the ransom demanded by an anonymous letter writer for Capt. McLaren, two members of the crew and two passengers of the lost liner Marowijne, who, the writer says, are held prisoner on an island in the Gulf of Mexico.

The advertisement was signed by C. H. Ellis, vice president of the company. It explained it followed the receipt of a second anonymous letter from the person who wrote the company August 23 that five men from the Marowijne were held for ransom and that the ship's papers and the captain's watch had been sent to the company's New York office as proof. The writer was invited to communicate with Mr. Ellis.

We have received none of the proofs you refer to at our New York office," the advertisement read. "If you have any proofs, present them. We are willing to pay ransom demanded." Mr. Ellis said that he had no faith in the truth of the anonymous writer's claims, but wished, if possible, to clear up the mystery.

Recent search of the gulf islands by naval and United Fruit vessels revealed no trace of any Marowijne survivors.

BRITISH TRANSPORT IS REPORTED TORPEDOED

Southland, Formerly Vaderland, Is Struck in Turkish Waters, According to Bremen Paper.

Berlin, Sept. 9, by wireless telegraph to Tuckerton, N. J.—A statement given out by the Overseas News Agency today quotes the Weserzeitung of Bremen as saying that the British steamship Southland, serving as a transport, was torpedoed recently in Turkish waters.

The Weserzeitung, of Bremen, points out that the transport Southland was torpedoed in Turkish waters. The Southland formerly was the Red Star liner Vaderland. Three steamers flew the Belgian flag up to the time of the occupation of Belgium, and then sailed under the American flag. Now the Southland, which lately was flying the American flag, suddenly was changed into a British transport.

No previous report has been made concerning the torpedoing of the Southland. A wireless dispatch from Berlin last week quoted a telegram from the German government that a British transport had been sunk by a mine off the entrance to the Dardanelles, with the loss of 1,370 men. It was thought at the time that the Berlin report might have been an inaccurate version of the sinking of the British transport Royal Edward in the Aegean Sea on August 14 by a German submarine.

The British government has made no announcement of the sinking of another transport. Shipping records, however, show that the Red Star liner Vaderland was renamed the Southland, being placed under the British flag, and was commandeered by the British government for war purposes last March. She is listed as being employed in the hospital service.

GERMAN GOLD TIED UP.

\$250,000,000 Held in Private Hands, According to Paris Paper.

Paris, Sept. 9.—German journals announce that there is at least \$250,000,000 in gold still in Germany in private hands. The special correspondent of the Echo de Paris, at Geneva, however, says that it is very likely that this gold already has crossed the frontier. For some time German capitalists have been prudently been putting their gold in places of safety abroad.

Within three months, says the correspondent, Swiss banks have received from Germany nearly \$3,000,000 in gold. Deposits in other neutral countries are said to be even greater.

1,500 WORKERS QUIT FACTORY.

Entire Force of American Graphophone Company Goes on Strike.

Bridgeport, Conn., Sept. 9.—The entire force of the American Graphophone Company, numbering about 1,500, went on strike today following the posting of a notice that the company could not grant the 20 per cent increase demanded. All the other demands, including the eight-hour day, were met.

Facts You Should Know about Duffy's Pure Malt Whiskey

It is purely and simply a medicinal whiskey—the one true medicinal whiskey. For use in the hospital, in cases of emergency and the sick room, ordinary or commercial whiskeys can never take the place of Duffy's. Because such whiskeys contain two harmful elements, fusel oil and tannin, that should never be administered to the delicate, aged, or those in need of a pure stimulant.

Wherever due regard is given to the digestive process and central nervous force, the unprejudiced physician never hesitates to prescribe Duffy's Pure Malt Whiskey for he knows it has always been made for medicinal use only, and contains the least amount of injurious substances, less even than the U. S. P. Standard.

While exhaustive analysis proves that Duffy's Pure Malt Whiskey is unlike any other, owing to its freedom from impurities, it possesses an other valuable distinction. It is made entirely from malted grains, the very best grains obtainable, and as diseased or poor grain cannot be malted, herein Duffy's possesses an asset of incalculable value.

In Duffy's Pure Malt Whiskey you can always obtain a pure, reliable tonic stimulant, which if taken in temperate prescribed dosage, will prove an invaluable aid in restoring health to the delicate, the convalescent, and the aged.

You should have a bottle in your home at all times to guard against emergencies and sudden illness, or to be used as a tonic stimulant for the weak and run down.

Get a bottle now—from your druggist, dealer or grocer for \$1.00, or write us how to "Get Duffy's and Keep Well." Free medical booklet will be mailed at your request.
